### What

Every organization on the planet knows WHAT they do. These are products they sell or the services they offer.

### How

Some organizations know HOW they do it. These are the things that make them special or set them apart from their competition.

### Why

Very few organizations know WHY they do what they do. WHY is not about making money. That's a result. It's a purpose, cause or belief. It's the very reason your organization exists.

# WHY

- Build level of trust in the QC region
  - Trust starts with getting to know each other
  - Discover that we have more in common than we expect
  - Find new ways to work together
- Connecting people with different skills, ideas, and experiences...
  - ...leads to innovation
  - ...creates richer, more interesting community experiences
- Trust is the foundation of *social capital*
  - Social capital relates to how much we trust and actively help each other
  - Like *financial* capital or *human* capital, *social* capital helps to build community
  - Two types of social capital to build
    - Bonding Capital – with people like us
    - Bridging Capital – with people not like us
